PürPly™

PürPly is a decorative hardwood plywood featuring uniform Birch veneer inner plies, no added Urea-Formaldehyde resin and decorative hardwood veneer face and back. A tightly compressed, virtually void free core, provides a contemporary look with exposed edge applications.

Contemporary Beauty

PürPly's multi-ply construction provides a visually attractive, layered edge that can be used as a contemporary design element and eliminates the need for further edge finishing processes.

Consistent Machining

With a core comprised of uniform thickness Birch veneers, PürPly offers enhanced machinability while reducing fuzzing and tear-out.

Eco Design

Understanding the ecological need to provide product solutions that reduce the consumption of materials and energy guides PürPly design. Sustainable harvesting, superior grading, and environmental certifications make PürPly the highest quality eco-friendly panel in the market.

Technical Specifications

Core Thickness	1/2"	3/4"
Ply Count	11	15
Glue Type - Core, NAUF	Phenolic	Phenolic
Formaldehyde Emission (ppm)	<0.02	<0.02
Modulus of Elasticity - Parallel (psi)	7,889	9,755
Modulus of Elasticity - Perpendicular (psi)	8,650	9,960
Modulus of Rupture - Parallel (psi)	8,412	8,295
Modulus of Rupture - Perpendicular (psi)	7,962	8,958
Screw Hold-Face (lbs)	625	625
Screw Hold-Edge (lbs)	503	503
Weight per Sheet (lbs)	57	84
Resin Compliance	ULEF EXEMPT
